TOTALS (10 Facilities)		35,448	229,938	53,127	20,895	18,675
AVERAGES (per building)		3,545	22,994	5,313	2,090	2,334

NOTES & DEFINITIONS

- NOT INCLUDED:

Juab County, which has no fixed facility, is not included.
- GROWTH FACTOR

2010 service population / 1999 service population
- GROWTH AREA

Additional space needed to provide current level of services for population anticipated for 2010  
Calculated by multiplying the growth factor times current area, then subtracting current area
- FUNCTIONAL NEEDS AREA

Additional area required to meet today’s program needs  
Needs identified by librarians; space calculated by applying standard unit allocations  
Note that requests for additional shelving area for existing collection types have been considered as part of “growth” needs; only shelving for new collection categories is listed in this section.

<sup>1</sup>The Delta City Library has combined services with the Millard County Library. Service populations and holdings listed here are those of the Delta Library fixed facility only. Because these libraries did not provide space information, projected areas listed have been based on standards established for libraries of this size.

<sup>2</sup>Manti Library numbers are distorted by the inefficiency of the current space. Replacement area figures assume the same net area at an efficiency of 70%.

TOTAL PROJECTED AREA NEEDED IN 2010  (SQUARE FEET)	BENCHMARK AREAS			
	CURRENT		2010	
	(AREA IN SQUARE FEET)		(AREA IN SQUARE FEET)	
	LOW	HIGH	LOW	HIGH
